Software Engineer

Software Engineer with experience building full-stack web applications, mobile applications, and business management systems. Skilled in React, Next.js, TypeScript, C#, .NET, SQL, and cloud platforms. Experienced in developing scalable solutions, database-driven applications, and user-focused software products.

SKILLS

- **Programming Languages:** C#, Java, JavaScript, Kotlin, PHP, Python, SQL, TypeScript
- **Frontend Development:** CSS3, HTML5, Next.js, React.js, Responsive Design, Tailwind CSS, Vite
- **Backend Development:** API Integration, Authentication, C# .NET, Express.js, Node.js, REST APIs
- **Databases:** Database Design, Firebase, MySQL, PostgreSQL, SQL Server, Supabase
- **Mobile Development:** Android SDK, Android Studio, Dart, Flutter, Jetpack Compose
- **AI / Machine Learning:** AI Integration, Keras, Machine Learning, TensorFlow
- **Tools & Platforms:** Agile Development, Azure, Docker, Git, GitHub, Linux, Vercel
- **Additional Strengths:** Agile Development, Clean Code Practices, Database Design, Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving, Software Development Life Cycle (SDLC), Version Control

WORK EXPERIENCE

Camellia Network PVT LTD Software Engineer

09/2025 – Present

- Develop and maintain software solutions using modern frontend and backend technologies.
- Build responsive user interfaces and reusable components using React and modern JavaScript frameworks.
- Design and integrate database-driven features with efficient data management practices.
- Debug application issues, optimize performance, and implement software improvements.
- Collaborate with development teams using Git-based workflows and agile practices.

PROJECTS

ProjectFlow — Full-Stack Project Management SaaS

05/2026 – Present

- Engineered a full-stack SaaS project management platform with **10+ core features** including authentication, workspace management, Kanban workflows, file uploads, and team collaboration.
- Designed a PostgreSQL database architecture supporting **multiple interconnected entities** using Drizzle ORM for efficient data management.

LearnIT — Android Learning Application

05/2026 – 06/2026

- Developed an Android learning application delivering educational content through a mobile-first interface with structured navigation and multimedia support.
- Implemented structured navigation, multimedia learning features, and responsive mobile layouts.
- Configured Android builds and optimized application performance.

CareerPathPro — AI Career Recommendation Platform

02/2026 – 05/2026

- Developed an AI-powered career guidance platform that analyzes user profiles and generates personalized career recommendations.

- Built responsive frontend interfaces using React, TypeScript, and modern component-based architecture.
- Integrated machine learning workflows for recommendation and prediction features.
- Automated data collection pipelines using web scraping, reducing manual data gathering efforts and improving recommendation data quality.

Evia Medicals — Pharmacy Management System

01/2026 – 03/2026

- Built a pharmacy management system handling **inventory tracking, billing, barcode scanning, and sales records**.
- Developed database-driven workflows using C#/.NET and SQL Server.
- Automated product management and transaction records to improve operational efficiency.

Restaurant POS & Management System

10/2025 – 01/2026

- Developed a POS solution managing **product inventory, billing, orders, and sales workflows** for restaurant operations.
- Implemented barcode-based product management and invoice generation to improve checkout efficiency.
- Designed database structures for efficient product, customer, and order management.
- Delivered a practical business application to streamline daily restaurant workflows.

EDUCATION

HND in Computing

ESOFT Metro Campus • ESOFT Metro Campus Kurunegala

01/2024 – Present

Level 3 Diploma in IT

ESOFT Metro Campus • ESOFT Metro Campus Kurunegala

02/2024 – 10/2024

Distinction — Top Performer

Advanced Level

Sri Sumangala National College Wariyapola • Wariyapola

01/2023

Results: B-1, F-2

Ordinary Level

Sri Gnanodaya Central College Wariyapola • Wariyapola

01/2020

Results: A-1, B-3, C-5

AWARDS & SCHOLARSHIPS

2nd Runner Up — Thinkfest Hackathon

01/2025

ESOFT

VOLUNTEERING & LEADERSHIP

ESOFT Kurunegala

Practical Tutor

- Conduct practical tutoring sessions for IT diploma students.
- Assist students with programming concepts, software development practices, and technical problem-solving.
